

Biography: Steven Johnston

Water Programs
Community and Environmental Department
Houston-Galveston Area Council

Current Position

Steven Johnston is a Senior Planner for H-GAC.

Prior Experience and Education

Mr. Johnston received his Bachelor of Science degree in Biology from the University of Houston at Clear Lake.

He has spent the past five years working with the Houston-Galveston region's stakeholders developing Total Maximum Daily Load (TMDL) studies and executing TMDL implementation plans to address the area's water quality impairments. Prior to joining H-GAC, Mr. Johnston spent twelve years working as a project coordinator for the TCEQ's Galveston Bay Estuary Program, implementing the Galveston Bay Plan Monitoring and Research and Water and Sediment Quality action plans.
